## CASE THAT'S PUZZLING

NEWELL STILLWELL OF WHITE-WRIGHT IS HAPPY.

After Suffering for Years With Asthma, Relief Comes from the Drugless Treatment of the NeVilles—Wonderful Work.

Here is an incident from White-wright, Texas, telling of the NeVilles, who are at the Whittington hotel in Ardmore, every Monday and Tuesday. We clip the following article from the White-wright Sun.

Everybody in White-wright is interested in the strange case of 11-year-old Newell Stillwell. This lad has been a sufferer from asthma since he was a babe four months old.

For years during severe attacks of this malady he has been compelled to sleep nights sitting upright in bed. Now everything is changed. He has discarded the inhaler which he has used for years. He breathes easily and sleeps every night as sound as anyone.

There is no more sitting up at night for this boy, because the asthma seems to have gone as suddenly as the sun shines after an April shower. His appetite is improved and his bowels are more regular. Is it any wonder that the friends and the family are interested? But the strangest part of the whole story has been this wonderful improvement has been obtained entirely under the drugless treatment of D. R. NeVilles and his son, C. E. NeVilles.

The hotel here is becoming a veritable "Mecca" for the sick on account of the wonderful work of healing these men are carrying on in White-wright.

B. F. Mills, the oldest dyer and cleaner in the city, is still at his old stand, 329 West Main street, and will call for and deliver your goods free of charge. Phone No. 175. 28-6

Third Bale Twelve Cents.

The third bale of the season's crop of new cotton was brought to Ardmore this morning by Jerry Williams, colored, who resides on Caddo. The bale was purchased by Point Dutton for 12 cents and 12 cents and the price paid was 12 cents. The cotton graded strict middling.

Williams states that he has under cultivation between 40 and 455 acres and that his crop has suffered from boll worms. He says he will make only about a third of a crop because of the damage done. Williams says that there has been some improvement, however, in his section of late and that the worms are leaving the cotton. He thinks that he has weather is driving worms from the fields.

B. F. Mills, the dyer, is erecting two new cottages on Second Avenue, north-west.

Hear the band concert Thursday evening, August 31 at Mr. and Mrs. Redfield's.

A truss purchased of us means comfort to the wearer for we guarantee a perfect fit. Smithsonian trusses fit, hold and wear better than any other kind.

Notice.

There will be a protracted meeting conducted at Lone Grove, I. T., by J. C. Foster of Glory, Texas, beginning the 1st Sunday in Sept. 1905. Everybody invited.

R. G. Spaulding went to Ardmore to attend a meeting of the Georgia Mining & Developing Co., in which he is a stockholder.—Lindsay News. Regarding this meeting the stockholders had nothing to say other than it was for the purpose of discussing business matters.

H. S. Suggs, who came in from Berwyn today, states that the cotton crop has improved somewhat during the past week and that worms are leaving the crop. The growth, he says, is rank and in the bottoms hot weather will be needed to mature the cotton. He says that a good deal less cotton will be produced this season in his section.

There was a drop of several degrees in the temperature last night and during the night, blankets became necessary. The atmosphere was quite chilly this morning with a suggestion of fall weather.

Does advertising pay? Yes. If the advertisement has a good article back of it. Selvidge Business College is a good illustration of this fact. In one year and a half it has grown to be the largest commercial school in the two territories. But from its inception it was the best.
